March 31, 2016

Semi-Annual Shareholder Letter

Dear Shareholder:

Your Fund ended the first quarter of 2016 with modestly negative returns, leaving our year-to-date performance and trailing six month returns behind those of the Russell 1000 Growth and S&P 500 Index.

Risk assets suffered a sharp correction during the first six weeks of the New Year, before staging a strong rally into quarter-end. The initial selling blizzard was kicked off by truly awful price action in commodities, assisted by consternation over softening corporate earnings estimates, frightening price declines in global bank shares, a smattering of disappointing economic data points, and confusion over the Fed's stance on rate hikes. The result was classic "risk off" trading action, characterized by wider credit spreads and generally lower stock prices. After commodity prices put in at least a short-term bottom on February 11, markets rallied in what we think was a combination of short-covering and bargain-hunting. The resulting bull run allowed the S&P 500 to erase an 11% correction to end the quarter roughly flat on the year.

After "threading the needle" to generate competitive returns compared to the broader market in 2015, our Fund has faced some tough sledding so far in 2016. We believe our portfolio's short-term performance has suffered from an inflection point in investor sentiment. Often, when fear levels rise and volatility spikes, faster-growing companies tend to see greater multiple compression compared to shares of companies with "slow but steady" growth rates. With this in mind, we note that Telecommunications Services, Utilities, and Consumer Staples were the three best-performing sectors of the market during the market's correction in early 2016. Each of these groups are characterized by a tendency to deliver slow but steady revenue and earnings growth. We did not have enough portfolio exposure to participate fully in these sectors, as our investment discipline makes it nearly impossible for us to justify paying 20-25x earnings for single-digit earnings growth rates. Almost always, we prefer to own faster-growing companies trading at reasonable prices over owning slow-growing companies that trade at exorbitant valuations. This preference costs us relative returns during market environments similar to what we are facing so far in 2016, but long experience makes us confident it will pay off in the fullness of time.

To wit, we remain overweight Technology and Consumer Discretionary stocks, as we believe they offer an attractive combination of growth, fundamental strength, and reasonable valuations. Notably, we have increased our exposure to leading Industrials and Materials stocks and are now moderately overweight each of these sectors. We see signs of improvement in a number of these more cyclical end markets, forward earnings estimates are turning up, and valuations are quite attractive. On the other hand, we have lightened our exposure to Health Care and biotechnology stocks, as this group now appears to face a variety of political and fundamental headwinds related to drug pricing.

There are no sure things in securities markets, but we can say with a high degree of confidence that earnings results for 1q 2016 will be uninspiring. According to Standard & Poor's, the current quarterly bottom-up earnings estimate

for the S&P 500 stands at \$25.94. If this proves to be accurate, 1q 2016's results will represent a year-over-year decline of over 7%. From a sector-level perspective, the big culprits for these poor earnings results are the Energy sector (-100% year-over-year earnings growth!), Materials (-19%), and Financials (-6.8%).

S&P 500 earnings expectations have been trending lower for more than a year, so the markets have likely already digested this bad news. Much more important will be the path of earnings growth over the coming year. On that score, there are signs of improvement. Forward 4-quarter earnings estimates have begun to firm up, to a recent forward estimate of \$124.78. This would imply the S&P 500 currently trades at roughly 16.5x forward estimated earnings, which in turn equates to an earnings yield of 6.1%. By these measures, stocks are best described as reasonably valued rather than cheap. Of course, to the extent that interest rates remain low, there is probably room for valuations to expand further, especially if this quarter proves to be the trough in the earnings cycle.

Commodity prices seem to have found their footing, with oil prices recently rebounding to the \$40/barrel range. This should help support future earnings results for Energy and Materials companies, which have declined precipitously. On a separate but related note, inflation seems to be picking up, with the Core Personal Consumption Expenditures (PCE) Index moving up to 1.68%, which is the highest since February 2013. We think this is important, as it was not very long ago at all that markets were spooked by the specter of outright deflation. To the extent that commodity prices continue to firm, investor fears of a deflationary spiral are likely to abate. This would likely provide support for risk assets like common stocks.

As many investors are aware, market leadership in 2015 was somewhat narrow, with a disproportionate share of the gains concentrated in a relatively small number of growth stocks. However, since stocks bottomed in mid-February, we have been pleasantly surprised by broadening participation within the major market sectors. We note that after almost two years of generally dreadful price performance, the Energy, Materials, and Industrial sector shares have been participating fully and have bounced strongly off of the February bottom. Since sustainable bull moves are most often built upon a solid foundation of broad sector participation, we think the stock market outlook has actually gotten brighter, especially compared with this time last year.

All of us at JAG wish you a happy, healthy, and prosperous spring and summer.

Best regards,

PORTFOLIO REVIEW (Unaudited)

March 31, 2016

The Fund's performance figures* for each of the periods ended March 31, 2016, compared to its benchmark:

	6 Month Return	1 Year Return	3 Year Return (Annualized)	Since Inception(a) (Annualized)
Class A	0.70%	(4.44)%	10.64%	12.47%
Class A with 5.75% load	(5.09)%	(9.94)%	8.49%	10.93%
Class C	0.37%	(5.15)%	9.82%	11.61%
Class I	0.90%	(4.15)%	10.94%	12.75%
Russell 1000 Growth Total Return Index ^(b)	8.11%	2.52%	13.61%	15.61%

*The performance data quoted here represents past performance. Current performance may be lower or higher than the performance data quoted above. Investment return and principal value will fluctuate, so that shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. Past performance is no guarantee of future results. The Manager and the Trust, with respect to the Fund, have entered into an Expense Limitation Agreement under which the Manager has contractually agreed to waive fees and/or reimburse expenses but only to the extent necessary to maintain total annual operating expenses (excluding any front end or contingent deferred loads, brokerage commissions, leverage interest, dividends on securities sold short, taxes, costs of investing in underlying funds, expenses incurred with any merger or reorganization, and extraordinary expenses such as litigation) at 1.50%, 2.25%, and 1.25% of the Fund's average daily net assets through January 31, 2017, for Class A, Class C and Class I shares, respectively. Each waiver or reimbursement by the Manager is subject to repayment by the Fund within the three fiscal years following the fiscal year in which that particular expense is incurred, if the Fund is able to make the repayment without exceeding the expense limitation in effect at that time and the repayment is approved by the Trustees. Without these waivers, the Fund's total annual operating expenses would have been 1.77%, 2.52%, and 1.52% for the JAG Large Cap Growth Fund's Class A, Class C, and Class I shares, per the latest prospectus, respectively. Please review the Fund's most recent prospectus for more detail on the expense waiver. For performance information current to the most recent month-end, please call toll-free 1-855-552-4596.

(a) JAG Large Cap Growth Fund commenced operations on December 22, 2011.

(b) The Russell 1000 Growth Total Return Index represents an unmanaged portfolio of those Russell 1000 Index companies with higher price-to-book ratios and higher forecasted growth values.

(6) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the period.

(7) The ratios of expenses to average net assets and net investment loss to average net assets do not reflect the expenses of the underlying investment companies in which the Fund invests.

(8) Recognition of net investment loss is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.

JAG Large Cap Growth Fund FINANCIAL HIGHLIGHTS

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout each Period Presented

	Class I				
	Six Months Ended March 31, 2016 (Unaudited)	Year Ended September 30, 2015	Year Ended September 30, 2014	Year Ended September 30, 2013	Period Ended September 30, 2012 (1)
Net asset value, beginning of period	\$ 15.20	\$ 15.60	\$ 13.89	\$ 11.75	\$ 10.00
Income (loss) from investment operations:					
Net investment loss (6)	(0.04)	(0.10)	(0.10)	(0.07)	(0.05)
Net realized and unrealized gain on investments	0.21	0.88	1.96	2.22	1.80
Total from investment operations	0.17	0.78	1.86	2.15	1.75
Less distributions from:					
Net realized gains	(0.69)	(1.18)	(0.15)	(0.01)	-
Total distributions	(0.69)	(1.18)	(0.15)	(0.01)	-
Net asset value, end of period	\$ 14.68	\$ 15.20	\$ 15.60	\$ 13.89	\$ 11.75
Total return (2)	0.90% (5)	4.92%	13.47%	18.33%	17.50% (5)
Net assets, at end of period (000s)	\$ 40,903	\$ 34,123	\$ 17,024	\$ 14,056	\$ 9,958
Ratio of gross expenses to average net assets (3)(7)	1.47% (4)	1.52%	1.51%	1.69%	2.17% (4)
Ratio of net expenses to average net assets (7)	1.25% (4)	1.25%	1.25%	1.50%	1.50% (4)
Ratio of net investment loss to average net assets (7)(8)	(0.47%) (4)	(0.64%)	(0.66%)	(0.56%)	(0.61%) (4)
Portfolio Turnover Rate	78% (5)	94%	88%	78%	56% (5)

(1) The JAG Large Cap Growth Fund commenced operations on December 22, 2011.

(2) Total return in the above table is historical in nature and represents the rate that the investor would have earned or lost on an investment in the Fund assuming reinvestment of dividends and capital gains distributions, if any. Had the Manager not waived a portion of the Fund's expenses, total returns would have been lower.

(3) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Manager.

(4) Annualized.

(5) Not annualized.

(6) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the period.

(7) The ratios of expenses to average net assets and net investment loss to average net assets do not reflect the expenses of the underlying investment companies in which the Fund invests.

(8) Recognition of net investment loss is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.

JAG Large Cap Growth Fund

NOTES TO FINANCIAL STATEMENTS (Unaudited)

March 31, 2016

(1) ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Mutual Fund Series Trust (“the **Trust**”), was organized as an Ohio business trust on February 27, 2006. The Trust is registered as an open-end management investment company under the Investment Company Act of 1940, as amended, (“**1940 Act**”). The Trust currently consists of forty-one series. These financial statements include the following series: JAG Large Cap Growth Fund (the “**Fund**”). The Fund is a separate diversified series of the Trust. JAG Capital Management LLC (the “**Manager**”), acts as manager to the Fund. The JAG Large Cap Growth Fund commenced operations on December 22, 2011. The Fund’s investment objective is capital appreciation.

The Fund offers three classes of shares: Class A, Class C and Class I shares. Each share class represents an interest in the same assets of the Fund, has the same rights and is identical in all material respects except that (i) each class of shares may bear different distribution fees; (ii) each class of shares may be subject to different (or no) sales charges; (iii) certain other class specific expenses will be borne solely by the class to which such expenses are attributable; and (iv) each class has exclusive voting rights with respect to matters relating to its own distribution arrangements.

The following is a summary of significant accounting policies consistently followed by the Fund which are in accordance with accounting principles generally accepted in the United States of America (“**GAAP**”). The Fund follows the specialized accounting and reporting requirements under GAAP that are applicable to investment companies.

a) Securities Valuation - Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ, at the NASDAQ Official Closing Price (“**NOCP**”). In the absence of a sale, such securities shall be valued at the last bid price on the day of valuation. The Fund may invest in portfolios of open-end or closed-end investment companies and exchange traded funds (the “**underlying funds**”). Open-end funds are valued at their respective net asset values as reported by such investment companies. The underlying funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value by the methods established by the Boards of the underlying funds. The shares of many closed-end investment companies and exchange traded funds, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company or exchange traded fund purchased by the Fund will not change. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost, provided such valuations represent fair value.

In unusual circumstances, instead of valuing securities in the usual manner, the Fund may value securities at “fair value” as determined in good faith by the Board of Trustees (the “**Board**”), pursuant to the procedures (the “**Procedures**”) approved by the Board. The Procedures consider, among others, the following factors to determine a security’s fair value: the nature and pricing history (if any) of the security; whether any dealer quotations for the security are available; and possible valuation methodologies that could be used to determine the fair value of the security. Fair value may also be used by the Board if extraordinary events occur after the close of the relevant world market but prior to the New York Stock Exchange close.

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

JAG Large Cap Growth Fund

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

March 31, 2016

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the valuation inputs, representing 100% of the Fund's investments, used to value the Fund's net assets as of March 31, 2016:

Assets	Level 2		Level 3		Totals
	Level 1	(Other Significant	(Other Significant		
Security	(Quoted Prices)	Observable	Unobservable		
Classifications ^(a)		Inputs)	Inputs)		
Common Stocks	\$ 48,505,339	\$ -	\$ -	\$ -	\$ 48,505,339
Short-Term Investments	741,435	-	-	-	741,435
Total	\$ 49,246,774	\$ -	\$ -	\$ -	\$ 49,246,774

^(a) As of and during the six months ended March 31, 2016, the Fund held no securities that were considered to be "Level 2" or "Level 3" securities (those valued using significant unobservable inputs). Therefore, a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value is not applicable. There were no transfers between Level 1 and Level 2 during the period. It is the Fund's policy to recognize transfers into and out of Level 1, Level 2, and Level 3 at the end of the reporting period. For a detailed break-out of Common Stocks by Industry classification, please refer to the Schedule of Investments.

b) Federal Income Tax - The Fund has qualified and intends to continue to qualify as a regulated investment company and to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, and to distribute substantially all of its taxable income to its shareholders. Therefore, no Federal income or excise tax provisions are required.

As of and during the six months ended March 31, 2016, the Fund did not have a liability for any unrecognized tax expense. The Fund recognizes interest and penalties, if any, related to unrecognized tax expense as income tax expense in the Statement of Operations. As of March 31, 2016, the Fund did not incur any interest or penalties. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2013, 2014 and 2015), or expected to be taken in the Fund's 2016 tax returns. The tax filings are open for examination by applicable taxing authorities, U.S. Federal, Nebraska, and foreign jurisdictions. No examination of the Fund's tax returns is presently in progress.

c) Distribution to Shareholders - Distributions to shareholders, which are determined in accordance with income tax regulations and may differ from GAAP, are recorded on the ex-dividend date. The Fund distributes annually to shareholders.

JAG Large Cap Growth Fund

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

March 31, 2016

d) Multiple Class Allocations - Income, non-class specific expenses and realized/unrealized gains or losses are allocated to each class based on relative net assets. Distribution fees are charged to each respective share class in accordance with the distribution plan. Expenses of the Trust that are directly identifiable to a specific Fund are charged to that Fund. Expenses, which are not readily identifiable to a specific Fund, are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the Funds in the Trust.

e) Other - Investment and shareholder transactions are recorded on trade date. Interest income is recognized on an accrual basis. Discounts are accreted and premiums are amortized on debt securities over the lives of the respective securities. Dividend income is recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds.

f) Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

g) Commitments and Contingencies - In the normal course of business, the Trust may enter into contracts that contain a variety of representations and warranties and provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, management considers the risk of loss from such claims to be remote.

h) Sales Charges (loads) - A maximum sales charge of 5.75% is imposed on Class A shares of the Fund. Investments in Class A shares made at or above the \$1 million breakpoint are not subject to an initial sales charge and may be subject to a 1% contingent deferred sales charge ("CDSC") on shares redeemed within 18 months of purchase (excluding shares purchased with reinvested dividends and/or distributions). The respective shareholders pay such CDSC charges, which are not an expense of the Fund. For the six months ended March 31, 2016, there were no CDSC fees paid.

(2) INVESTMENT TRANSACTIONS

For the six months ended March 31, 2016, aggregate purchases and proceeds from sales of investment securities (excluding short-term investments) for the Fund were as follows:

<u>Purchases</u>	<u>Sales</u>
\$ 44,058,589	\$ 37,748,963

(3) MANAGEMENT AGREEMENT AND OTHER RELATED PARTY TRANSACTIONS

JAG Capital Management LLC (the "**Manager**") acts as investment manager to the Fund pursuant to the terms of the Management Agreement. Under the terms of the Management Agreement, the Manager manages the investment operations of the Fund in accordance with the Fund's investment policies and restrictions. The Manager provides the Fund with investment advice and supervision and furnishes an investment program for the Fund. For its investment management services, the Fund pays to the Manager, as of the last day of each month, an annualized fee equal to 1.00% of average net assets, such fee to be computed daily based upon daily average net assets of the Fund. The Manager pays for all employees, office space and facilities required by it to provide services under the Management Agreement, with the exception of specific items of expense (as detailed in the Management Agreement). For the six months ended March 31, 2016, management fees of \$250,276 were incurred by the Fund, before the waiver and reimbursement described below.

JAG Large Cap Growth Fund

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

March 31, 2016

The Manager and the Trust, with respect to the Fund, have entered into an Expense Limitation Agreement under which the Manager has contractually agreed to waive fees and/or reimburse expenses but only to the extent necessary to maintain total annual operating expenses (excluding any front end or contingent deferred loads, Rule 12b-1 fees, brokerage commissions; leverage interest, dividends on securities sold short; taxes; costs of investing in underlying funds; expenses incurred with any merger or reorganization, and extraordinary expenses such as litigation) at 1.25% of the Fund's average daily net assets through January 31, 2017. Each waiver or reimbursement by the Manager is subject to repayment by the Fund within the three fiscal years following the fiscal year in which that particular expense is incurred, if the Fund is able to make the repayment without exceeding the expense limitation in effect at that time and the repayment is approved by the Trustees. Without these waivers, the Fund's total annual operating expenses would have been 1.77%, 2.52%, and 1.52% for the JAG Large Cap Growth Fund's Class A, Class C, and Class I shares, per the latest prospectus, respectively.

For the six months ended March 31, 2016, the Manager waived Advisory Fees and/or reimbursed expenses in the amount of \$55,083. As of March 31, 2016, the manager may recapture \$34,078 before September 30, 2016, \$43,440 before September 30, 2017 and \$76,646 before September 30, 2018 subject to the terms of the Expense Limitation Agreement.

The Trust has entered into a Management Services Agreement with MFund, LLC ("**MFund**"). Pursuant to the Management Services Agreement, MFund provides sponsorship, management and administration services. For MFund's services to the Fund, the Fund pays MFund a base fee of \$5,000 annually, an annualized asset based fee of 0.10% of average daily net assets up to \$50 million, with lower fees at higher asset levels, plus reimbursement of out of pocket expenses. For the six months ended March 31, 2016, the Fund incurred \$27,299 for such fees.

A Trustee and Officer of the Trust is also the controlling member of MFund, Alphacentric Advisors LLC, and Catalyst Capital Advisors LLC (Alphacentric and Catalyst each serve as an investment advisor to other series of the Trust), and is not paid any fees directly by the Trust for serving in such capacities.

J.A. Glynn Investments, LLC. acted as the broker of record on executions of purchases and sales of the Fund's portfolio investments. For those services, J.A. Glynn Investments, LLC received \$17,200 in brokerage commissions from the Fund for the six months ended March 31, 2016. Certain Officers and/or employees of the Manager have an affiliation with J.A. Glynn Investments, LLC.

Gemini Fund Services, LLC ("**GFS**") provides administrative, fund accounting, and transfer agency services to the Fund pursuant to agreements with the Trust, for which it receives from each Fund: (i) basis points in decreasing amounts as assets reach certain breakpoints; and (ii) any related out-of-pocket expenses.

The Independent Trustees are paid a quarterly retainer of \$500 per Fund in the Trust. The Independent Trustees also receive, at the discretion of the Chairman, \$500 per Valuation Committee meeting attended, \$500 per special telephonic board meeting attended and \$2,000 per special in-person meeting attended. The fees paid to the Independent Trustees for their attendance at a meeting are shared equally by the Funds of the Trust and Variable Insurance Trust to which the meeting relates. The Lead Independent Trustee of the Trust receives an additional fee of \$150 per Fund in the Trust per quarter. The Chairman of the Trust's Audit Committee receives an additional fee of \$400 per Fund in the Trust per year. The fees paid to the Trustees are paid in Fund shares.

Certain Officers of the Fund are also employees of GFS, and are not paid any fees directly by the Fund for serving in such capacity.

Pursuant to the Services Agreements, MFund provides chief compliance officer services to the Funds. For these services, the Funds pay MFund an annual base fee plus an annual asset-based fee based upon net assets. In addition, the Funds reimburse MFund for any reasonable out- of- pocket expenses incurred in the performance of its duties under the Services Agreement. For the six months ended March 31, 2016, the Fund incurred \$10,091 for such fees.

The Trust has adopted a Distribution Plan pursuant to Rule 12b-1 (the "**Plan**"), under the 1940 Act for Class A shares and Class C shares, that allows the Fund to pay distribution and shareholder servicing expenses of up to 0.50% per annum for the Class A shares and up to 1.00% for the Class C shares based on average daily net assets of each class. Class A shares are currently paying 0.25% per annum of 12b-1 fees. Class C shares are currently paying 1.00% per annum of 12b-1 fees. The Trust

JAG Large Cap Growth Fund

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

March 31, 2016

has not adopted a plan for Class I shares. The fee may be used for a variety of purposes, including compensating dealers and other financial service organizations for eligible services provided by those parties to the Fund and its shareholders and to reimburse Northern Lights Distributors, LLC. (the “*Distributor*”) and the Manager for distribution related expenses.

For the six months ended March 31, 2016, J.A. Glynn & Co., an affiliated broker, received \$844 in underwriter commissions from the sale of shares of the Fund.

(4) TAX COMPONENTS OF CAPITAL

The tax character of fund distributions paid for the years ended September 30, 2015 and September 30, 2014 was as follows:

	Fiscal Year Ended September 30, 2015	Fiscal Year Ended September 30, 2014
Ordinary Income	\$ 184,384	\$ -
Long-Term Capital Gain	1,873,339	242,517
	<u>\$ 2,057,723</u>	<u>\$ 242,517</u>

As of September 30, 2015, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gains	Post October Loss and Late Year Loss	Capital Loss Carry Forwards	Other Book/Tax Differences	Unrealized Appreciation/ (Depreciation)	Total Accumulated Earnings/(Deficits)
\$ -	\$ 1,503,939	\$ (169,934)	\$ -	\$ -	\$ 4,707,350	\$ 6,041,355

The difference between book basis and tax basis accumulated net realized gain and unrealized appreciation from investments is primarily attributable to the tax deferral of losses on wash sales.

Late year losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Fund incurred and elected to defer such late year losses of \$169,934.

Permanent book and tax differences, primarily attributable to the tax treatment of net operating losses resulted in reclassification for the year ended September 30, 2015 as follows:

Paid In Capital	Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gains (Loss)
\$ (36,807)	\$ 36,807	\$ -

(5) NEW ACCOUNTING PRONOUNCEMENTS

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, “Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)”, modifying ASC 946 “Financial Services – Investment Companies”. Under the modifications, investments in affiliated and private investment funds valued at Net Asset Value are no longer included in the fair value hierarchy disclosed in Footnote 2. ASU 2015-07 is effective for fiscal years beginning on or after December 15, 2015, and interim periods within those annual periods. Early application is permitted. Management is currently evaluating the implications of ASU 2015-07 and its impact on financial statement disclosures.

(6) SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

JAG LARGE CAP GROWTH FUND

EXPENSE EXAMPLES (Unaudited)

March 31, 2016

As a shareholder of the JAG Large Cap Growth Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchases of Class A shares; (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the JAG Large Cap Growth Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2015 through March 31, 2016.

Actual Expenses

The “Actual Expenses” line in the table below provides information about actual account values and actual expenses. You may use the information below together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The “Hypothetical” line in the table below provides information about hypothetical account values and hypothetical expenses based on the JAG Large Cap Growth Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balances or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads). Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value 10/1/15	Ending Account Value 3/31/16	Expenses Paid During Period* 10/1/15 – 3/31/16	Expense Ratio During Period** 10/1/15 – 3/31/16
Actual				
Class A	\$1,000.00	\$1,007.00	\$7.53	1.50%
Class C	1,000.00	1,003.70	11.27	2.25
Class I	1,000.00	1,009.00	6.28	1.25
Hypothetical (5% return before expenses)				
Class A	\$1,000.00	\$1,017.50	\$7.57	1.50%
Class C	1,000.00	1,013.75	11.33	2.25
Class I	1,000.00	1,018.75	6.31	1.25

*Expenses are equal to the average account value over the period, multiplied by the Fund’s annualized expense ratio, multiplied by the number of days in the period (183) divided by the number of days in the fiscal year (366).

**Annualized.

Proxy Voting Policy and Portfolio Holdings

Reference is made to the Prospectus and the Statement of Additional Information for more detailed descriptions of the Management Agreement, Services Agreement and Distribution and/or Service (12b-1) Plan, tax aspects of the Fund and the calculation of the net asset value of shares of the Fund.

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (the "Commission") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the Commission's Public Reference Room in Washington, DC. Information on the operation of the Commission's Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling 1-855-552-4596; and on the Commission's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling 1-855-552-4596; and on the Commission's website at <http://www.sec.gov>.

JAG Large Cap Growth Fund

Additional Information (Unaudited) (Continued)

March 31, 2016

Consideration and Renewal of Management Agreement JAG Capital Management, LLC with respect to JAG Large Cap Growth Fund

In connection with the regular meeting held on November 18 & 19, 2015, the Board of Trustees (the "Board" or the "Trustees") of Mutual Fund Series Trust (the "Trust"), including a majority of the Trustees who are not "interested persons" as that term is defined in the Investment Company Act of 1940, as amended, discussed the renewal of a management agreement between the Trust and JAG Capital Management, LLC ("JAG"), with respect to JAG Large Cap Growth Fund (the "Fund") (the "Management Agreement").

The Trustees were assisted by legal counsel throughout the review process. The Trustees relied upon the advice of legal counsel and their own business judgment in determining the material factors to be considered in evaluating the Management Agreement and the weight to be given to each factor considered. The conclusions reached by the Trustees were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the renewal of the Management Agreement. In connection with their deliberations regarding renewal of the Management Agreement, the Trustees reviewed materials prepared by JAG ("JAG 15c Response").

Nature, Extent and Quality of Services. The Trustees reviewed the JAG 15(c) Response, which provided an overview of the services provided by JAG as well as information on the firm's personnel and compliance program. The Trustees discussed the background and experience of the portfolio managers and other key personnel. The Trustees noted that JAG had employed a new Director of Research to aid in research and that the services team was otherwise consistent from last year. The Trustees noted that there had been no material compliance issues, litigation, or administrative actions brought against JAG over the past. The Trustees noted that an SEC exam of JAG's records and operations had taken place in 2015 but that no material actions were brought against JAG as a result thereof. They further noted that FINRA conducted an exam of JAG in 2015 and that no exceptions were noted by FINRA. The CCO of the Trust stated that JAG's compliance program is reasonably designed and that JAG has been highly responsive with regard to his inquiries. The Trustees concluded that they were pleased with the quality of services provided by JAG.

Performance. The Trustees reviewed the performance of the Fund over the last one year and since inception periods, and also reviewed the average performance of the advisor selected peer group, the Large Cap Growth Morningstar Category, and the advisor selected benchmarks. The Trustees noted favorably that the Fund outperformed each of those metrics for the one year period. The Trustees discussed the Fund's underperformance for the since inception period as compared to the peer group, Morningstar category, and benchmarks, and noted that though the Fund's performance lagged behind those metrics, its performance was still reasonably comparable. The Trustees also acknowledged the strength of the Fund's performance for the since inception period as very strong and were pleased with the returns that JAG has been able to generate for shareholders. The Trustees noted that the strong SMA returns are further evidence of JAG's propensity to generate strong results under this investment strategy. The Trustees concluded after further discussion that the Fund's performance was reasonable.

Fees and Expenses. The Trustees noted JAG charges an advisory fee of 1.00% of average daily net assets before waiver and earned 0.74% after waivers. They further noted that the fee is higher than the averages, but within the high/low range of fees charged by the funds in the peer group and Morningstar category, before fee waiver, and lower than the averages after fee waiver. The Trustees further noted that the net expense ratio of the Fund is 1.25%, which is lower than the average for the peer group, nominally higher than the average of 1.23% for the Morningstar category average, and well within the high/low range for both. The Trustees concluded after further discussion that the advisory fee is reasonable.

Profitability. The Trustees considered JAG's profitability in connection with its relationship with the Fund. The Trustees acknowledged that though JAG retained a significant percentage of JAG fees as profit, the actual dollar figure was modest. Moreover the Trustees noted JAG appeared to have used a conservative method for allocating costs compared to the actual effort applied to the money fund. They noted that an affiliated broker executes trades for the Fund. The Trustees concluded, after further discussion of the profitability analysis provided, that excessive profitability from JAG's relationship with the Fund was not an issue at this time.

Economies of Scale. The Trustees considered whether JAG had achieved economies of scale with respect to the management of the Fund. The Trustees acknowledged that the Fund significantly increased its assets under management over

the past year. The Trustees further acknowledged that JAG continues to waive a portion of its legitimately earned advisory fee under the Fund's expense limitation agreement. The Trustees noted that break points have not been suggested at this time, but that the issue of break points should be revisited if Fund assets reach a level at which JAG can retain the entire advisory fee. The Trustees determined, after further discussion, that meaningful economies of scale have not been reached at this time and agreed that the matter of economies of scale would be revisited as Fund assets increase.

Conclusion. Having requested and received such information from JAG as the Trustees believed to be reasonably necessary to evaluate the terms of the Management Agreement, and as assisted by the advice of Counsel, the Trustees concluded that renewal of the Management Agreement was in the best interests of the JAG Large Cap Growth Fund and its shareholders.

PRIVACY NOTICE

MUTUAL FUND SERIES TRUST

Rev. June 2011

FACTS

WHAT DOES MUTUAL FUND SERIES TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Mutual Fund Series Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Mutual Fund Series Trust share information?	Can you limit this sharing?
